

2011 CALENDAR

# Calendar Project

*By Steve & Carol Sporre, MABA members*

This 2011 calendar was set up for black and white printing. Without the blacksmithing ads on the left, you can use the space for notes, pictures or kids drawings.

Provided credit is given to the Michigan Artist Blacksmiths Association, permission is granted to reprint this calendar and the hanger project for NON PROFIT purposes.

The pages were set up to print on one side as most home printers do not duplex, and it needs to be 3-hole punched to hang on 3 hooks. It works fine on 28 lb. stock, we like it better printed on 65 lb. card stock.

Many computer “Print Card or Project Programs” can make a calendar so you would be able to generate one of your own in the future.

The calendar hanger is a simplified key rack. Most usually hang from 2 nails or screws, but this is light enough to hang from one. The placement of the hooks needs to match your 3-hole punch. The hanger could be embellished any way you would like.
